What an AI action is

An AI action is one job the AI does for you. Every 30 days a plan gives its number of actions; unused ones don't carry over, and for a reserve there are packs — they never expire.

One action

- Read a plan or a drawing: the building, the flats, the rooms, the areas.
- Write listing texts — for OLX, DIM.RIA, Instagram and your site.
- Move a price list from a PDF or photos into the sales chart.
- Draft a construction-progress update from site photos.
- Build a house from a description or a sketch.
- Fill in a property's form from a description in your own words — only when something is filled in.
- Pick properties for a client's selection from their request.
- **Photos → 3D** — a house from facade photos, furniture from room photos: the number of actions is shown before you start, usually one; no more is charged.

Spends no actions

- The AI assistant for buyers — it has its own monthly allowance on the plan.
- Tracing a plan by hand, the 3D builder, the design project.
- A sales chart from Excel, CSV or a Google Sheet.
- A DIM.RIA feed import — up to 2,000 drafts.
- Enquiries — unlimited.
- 3D files and PDFs, video and a photoreal frame.

Payment, renewal, cancelling

How to pay

By Visa, Mastercard, Apple Pay or Google Pay in your cabinet — charged in hryvnias, your bank converts; access at once. Or by invoice — in hryvnias, and for non-residents also in dollars or euros; access within 1 working day of the payment arriving.

Cancelling

Stop any time — simply don't pay for the next period. Nothing to write.

When a plan ends

Presentations keep working and enquiries keep arriving. Editing, new properties, prices and statuses, invitations and the AI come back when you renew; the buyers' assistant switches off.

Price changes

We give at least 30 days' notice. A period already paid is not recalculated — the new price applies from the next payment.

Period and renewal

A day, a week, a month or a year; a year costs ten months. No auto-renewal: nothing is ever charged by itself. The next payment extends "paid until" from the previous date.

Refunds

Within 14 days of the first payment for a plan — the full amount, no questions. After that — for unused full days if access was stopped through our fault or the service was down for more than 72 hours in a row. For an AI pack — the unused actions within 14 days. A one-off setup already done is not refunded.

When a cabinet is deleted

90 days after a paid plan ends; 30 days after a test drive, or with no payment at all. The date is in your cabinet; we remind you in Telegram 7 days and 1 day before.

Who buys, and documents

Business plans — companies and sole traders, non-residents included; "For yourself" — private persons aged 18 and over, with consumer rights in full. A public offer, accepted by payment; an act of services on request by email. Prices exclude VAT: the seller is not a VAT payer.

Refunds: write to hello@budvid.com from the email in your cabinet; we return the money the same way you paid, within 7 working days of confirming. Full terms — budvid.com/terms.
